NIRVANA[™]

NIRVANA HAIR CARE PRODUCTS

Our first products continue to be our most popular. Our shampoos are built around a color conditioning system using botanical ingredients for the color effects.

Nirvana gathers pure botanical extracts from all over the world, incorporating them into hair care products as close as possible to what nature intended. Throughout the years, these gifts from nature have proven themselves safe and effective.

Nirvana's botanical shampoos, conditioners and styling products help you to restore what time and the environment have taken away from your hair.

Pure herbal extracts and rich essential oils renew your hair's youthful beauty, restoring shine that seems to radiate from within.

Shampoos

Shampoos cleanse gently, removing dirt, bacteria and surface oils, while leaving in and supplementing your hair's natural moisture. They contain Keratin hair amino acids to strengthen hair naturally, as well as Vitamin E as an antioxidant and Vitamin A for sheen and gloss and as a source of essential fatty acids to increase the flexibility and elasticity of the hair.

Conditioners

Conditioners help to restore body and resiliency to hair, repair damage due to chemicals or environmental effects, and make hair manageable.

Cherry Almond Bark Conditioner

You'll feel the difference in your hair the first time you use this extraordinary deep toning conditioner. This is our all-time best selling product, for good reason! Contains botanical extracts to soothe, soften and protect. This product takes on the toughest tangles, leaving hair shiny and manageable and with lots of body. This product is beneficial for all hair types. Antioxidants in the product help reduce free radicals that could injure hair and scalp. It is especially recommended for dry, damaged or brittle hair.

Herbal Crystal Hair Repair

A deep conditioning product designed as a penetrating repair for use on damaged and difficult to condition hair. Botanicals and soluble zirconium crystals enter the hair shaft to give maximum strength and manageability, stopping breakage. You will notice results right away! You can use this product on your hair before perming for strength and after coloring to retain color intensity.

Rosemary Mint Hair Rinse

This invigorating conditioner is for all hair types. It leaves a fresh, minty tingle while adding body and shine, preventing tangles and static. It also moisturizes and conditions. This product is high in Biotin to help strengthen hair follicles and promote healthy hair growth. The mint makes it cooling, refreshing and invigorating.

Styling Products

These are natural alternatives to commercial styling preparations which usually have lots of chemicals and therefore detract from long-term hair and scalp health. We use a minimum of alcohol and add lots of botanical ingredients (and aloe vera) to provide your hair both the styling you want, and the health it deserves.

Flax Sculpting Gel

This thick Flax Seed and Aloe Vera based styling gel adds strength, body and volume to hair. Never flakes or leaves hair sticky.

Witch Hazel Hair Spray

A formula combining Witch Hazel Extract and quick drying SD Alcohol with Panthenol, Vitamins A & E and essential oils, for a firm hold that leaves hair soft to the touch. Herbal extracts and essential oils protect hair from dryness. Leaves hair free from buildup, never flaky or sticky.
